Upgrade Procedure for ZWCAD 2010

ZWCAD 2010 is officially released now, in order to make a good understanding about the upgrade procedure, the following describe the details about upgrade for dongle version and soft key version. For the upgrade fee, please contact our sales.

1. Upgrade from Dongle Encryption to Dongle Encryption
2. Upgrade from Soft Encryption to Soft Encryption
3. Upgrade from Dongle Encryption to Soft Encryption

Upgrade from Dongle Encryption to Dongle Encryption

Dongle Encryption	→	Dongle Encryption

Procedures:
1. Send your Product ID to Perico.
2. We will send ZWCAD 21010 license code to you after receiving your request.
3. Use your original dongle and the new license code to activate.

Note: There is no need to send the dongle to Perico.

Upgrade from Soft Encryption to Soft Encryption

Soft Encryption	→	Soft Encryption

Procedures:
1. Send the ZWCAD 2009 activation ID to Perico.
2. ZWCAD 2010 activation ID is generated for you according to your previous Activation ID.
3. Return your ZWCAD 2009 activation ID to Licensing Center.
4. Use the new ZWCAD 2010 activation ID to activate ZWCAD 2010.

Note:
a. As only one of these two activation IDs can be accepted by the ZWCAD Licensing

Center at one time, so please Return ZWCAD 2009 activation ID before ZWCAD 2010 activation ID is being used.

b. For stand-alone version, on the same computer, ZWCAD 2010 activation ID can be used to activate ZWCAD 2009 or ZWCAD 2010, and if ZWCAD 2010 is activated, ZWCAD 2009 will be activated automatically.

c. For network version, after the new ZWCAD 2010 activation ID has been activated in your server, workstation with ZWCAD 2010 can get the license from your server, but your existing ZWCAD 2009 can't get the license. In order to make sure that both of ZWCAD 2010 and ZWCAD 2009 can get the license from the server, the special package of ZWCAD 2009i will be available around Jan 20th. If you need it, please contact our technical team.
