

1. A brand new engine brings you incredible new experience

ZWCAD+ uses a new CAD engine that developed from scratch all by ourselves, which enormously enhanced compatibility, stability and performance. Thanks to this, ZWCAD+ now supports dual-core processor, and uses much less system memory than before when opening drawings. Both of them make ZWCAD+ runs much faster and handle large drawings much easier.

2. Plenty of new features and enhancements increase your efficiency to no bound

Newly added *SmartMouse* enables you to execute CAD commands in such an easy way that beyond your imagination. Other new functions like *Associative Dimension*, *Viewport Maximization*, *Cycle Select* and *Objects Isolation* are all there for you to explore. Huge enhancements have also been made to *Tool Palettes*, *Revision Cloud*, *Field* and *Snap*.

3. New Application Programming Interfaces enables more add-ons with better performance

Coming with the new engine are the new APIs, which have also been reconstructed. ZWCAD+ still supports LISP, VBA, ZRX and SDS interfaces, but the quality is totally different. LISP functions coverage rise to more than 90% of AutoLISP with all reactors, and LISP routines run 8 times faster on average; ZRX is code-level compatible with ARX, which makes the migration work a quite easy job for developers.

4. More development resources and technical support investment

After ZWCAD+ official released, more and more development resources and technical supports will be devoted to ZWCAD+. This guarantees a fast improvement on product, and a quick response to all ZWCAD+ users.

5. Downward compatibility to all previous ZWCAD

Once you have activated ZWCAD+ on your computer, you can use all of your previous ZWCAD as well from version 2009 to 2012 on the same computer.

6. Upgrade Pack now available for you to save more budget while always stay updated

A new way to upgrade your ZWCAD+ in following versions is to buy a 3-Year Upgrade Pack together with your software. It only cost half of the upgrade fee to keep yourself always accessible to the latest version of ZWCAD+ in the next 3 years, so you don't need to worry about upgrading issue any more!
